Program: [Economic Census](#)

Survey: [2007 Economic Census of Island Areas](#)

Sector: [2007 Economic Census of Island Areas](#)

Series: **Geographic Area Series**

General Description: **Data Products**

The following data files are published from the 2007 Economic Census of Island Areas:

- American Samoa. There is one set of data files for all covered kinds of business. The file presents data for American Samoa, districts, and counties.
- Guam. There is one set of data files for all covered kinds of business. The file presents data for Guam and its election districts.
- Northern Mariana Islands. There is one set of data files for all covered kinds of business. The file presents data for the Northern Mariana Islands and three municipalities: Saipan, Tinian, and Rota. The Northern Islands are excluded from this data file because no business activity was reported for this municipality.
- U.S. Virgin Islands. There is one set of data files for all covered kinds of business. The file presents data for the U.S. Virgin Islands as a whole. In addition, data are presented for St. Thomas, St. John, St. Croix, and the towns of Charlotte Amalie, Christiansted, and Frederiksted.
- Puerto Rico. There are three sets of data files that cover different kinds of business:
 - Manufacturing. This file presents data for manufacturing establishments by kind of business and metropolitan areas and municipios.
 - Geographic Area Series. This file presents data for businesses engaged in sectors other than manufacturing and construction. Data are presented for Puerto Rico commercial regions and municipios. The file also includes product-line sales data for wholesale and retail trades by kind of business for Puerto Rico.
 - Construction. This file presents data for construction establishments by kind of business and metropolitan areas and municipios.

Datos

Los siguientes archivos de datos son publicados para el Censo Económico de 2007 de las Áreas Insulares:

- Samoa Americana. Existe un volumen de archivo de datos para todos los tipos de negocios incluidos en el censo. Las tablas presentan los datos estadísticos para Samoa Americana, distritos y condados.
- Guam. Existe un volumen de archivo de datos para todos los tipos de negocios incluidos en el censo. Las tablas presentan datos estadísticos para Guam y sus distritos.
- Islas Marianas del Norte. Existe un volumen de archivo de datos para todos los tipos de negocios incluidos en el censo. Las tablas presentan datos estadísticos para las Islas Marianas del Norte y tres municipalidades: Saipan, Tinian y Rota. Las Islas del Norte (Northern Islands) están excluidas de las tablas ya que no se registraron actividades comerciales para esta municipalidad.
- Islas Vírgenes de E.E.U.U. Existe un volumen de archivo de datos para todos los tipos de negocios incluidos en el censo. Las tablas presentan los datos estadísticos para las Islas Vírgenes de E.E.U.U. en su totalidad. La información también es presentada para St. Thomas, St. John, St. Croix y los pueblos de Charlotte Amalie, Christiansted y Frederiksted.
- Puerto Rico. Existen tres volúmenes de archivos de datos que incluyen diferentes tipos de negocio:
 - Manufactura. Estas tablas presentan los datos estadísticos para los establecimientos de manufactura según la industria y áreas metropolitanas y municipios.
 - Construcción. Estas tablas presentan datos estadísticos para los establecimientos de construcción según la industria y áreas metropolitanas y municipios.

- Series de Área Geográfica. Estas tablas presentan datos estadísticos para negocios que se dedican a sectores económicos que no incluyen construcción ni manufactura. Los datos son presentados para las regiones comerciales y los municipios de Puerto Rico. Las tablas también incluyen los datos estadísticos sobre las ventas de líneas de productos para el comercio al por mayor y al detal en Puerto Rico, según el tipo de negocio.

Introductory Description: **Scope**

Methodology Description: **Sources of Data**

[Versión en español](#)

The 2007 Economic Census of Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands was conducted by mail. The economic census for American Samoa was conducted using a combination of mail and personal enumeration. Descriptions of the sources of data for the island areas follow:

1. Guam, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands — A census form was mailed to all employer firms (employers of one person or more) in operation at any time during 2007 and classified as being within the scope of the census. One single report form was used to collect data for Guam, Northern Mariana Islands, and the U.S. Virgin Islands. Nine separate report forms (*Utilities, Transportation, and Warehousing; Construction; Manufacturing; Wholesale Trade; Retail Trade; Finance, Insurance, Real Estate, Rental and Leasing; Accommodation Services; Services; and General Schedule*) with English and Spanish versions were used to collect data for Puerto Rico. Firms were instructed to return their completed report form by mail. A telephone follow-up was conducted to obtain information from selected firms that failed to return their report form.

The governments of Guam and Northern Mariana Islands, under the provisions in Title 13 of the United States Code, Section 191(b), were responsible for contacting respondents about overdue census forms. The Chief Economist of the Department of Labor in Guam and the Director of the Central Statistics Division, Department of Commerce in the Northern Mariana Islands, supervised the local activities. Staff from the Census Bureau trained the project leaders, supervisors, and interviewers in Guam and the Northern Mariana Islands, respectively. Staff from the Department of Labor in Guam and the Department of Commerce in the Northern Mariana Islands, who worked with census data, were sworn to uphold the confidentiality of the data. The Census Bureau worked with the Department of Labor and the Central Statistics Division to collect information for nonrespondent establishments. Interviewers were instructed to contact establishments by telephone to obtain the required information. Personal interviews were conducted to obtain data from establishments that requested a personal visit or could not be contacted by telephone. Quality checks were performed to ensure that the necessary reports were obtained.

2. American Samoa — A combination of mail and personal enumeration was used to conduct the economic census of American Samoa. Data were collected for establishments with and without employees that were in operation during 2007. A single report form was used to collect data for American Samoa.
 - a. Employer establishments — Establishments with payroll were sent a report form to be completed and returned to the Census Bureau by mail. A telephone follow-up was conducted to collect information for establishments that failed to answer the census.
 - b. Nonemployer establishments — Data for nonemployer establishments were collected through personal enumeration. The Government of American Samoa collected the data under the provisions in Title 13 of the United States Code, Section 191(b). The Chief Statistician of the Statistics Division at the American Samoa Department of Commerce supervised the field enumeration and follow-up of nonemployer and nonrespondent employer establishments referred by the Census Bureau. All persons working with census data were sworn to maintain the

confidentiality of Census Bureau information. Census Advisors trained the project leader as well as the interviewers. The advisors worked with local staff to ensure that Census Bureau standards and procedures were followed.

American Samoa was divided into four enumeration zones — Manu'a Islands, Eastern, Central, and Western districts of Tutuila. Nonemployer establishments were identified from the American Samoa Government Business License List. Interviewers were provided with an assignment list that included the establishments assigned for interview and a labeled report form for each establishment listed. The interviewers obtained information about months in operation, physical location, sales/receipts, employment and payroll, expenses, kind of business, sales by class of customer, description of merchandise sold, construction work done, products produced, or services provided, legal form of organization, ownership status, and status of the establishment at the end of 2007. A consistency review was performed on every report form to ensure the accuracy of the reported data.

The report forms used to collect information for establishments in the island areas are available at www.help.econ.census.gov/econhelp/index2007.html.

A more detailed examination of census methodology is presented in the *History of the 2007 Economic Census* at www.census.gov/econ/www/history.html.

Industry Classification of Establishments

The classifications for all establishments are based on the *North American Industry Classification System, United States, 2007* manual. The method of assigning classifications and the level of detail at which establishments are classified depends on whether a report form was obtained for the establishment.

- Establishments that returned a report form are classified on the basis of their self-designation, detail/description of product lines sold, type of construction work done, products produced, or services provided, and other industry-specific inquiries.
- Establishments that did not return a report form are classified on the basis of information obtained from previous survey data and administrative records of other government agencies.

Basis of Reporting

The economic census is conducted on an establishment basis. A company operating at more than one location is required to file a separate report for each store, factory, shop, or other location. Each establishment is assigned a separate industry classification based on its primary activity and not that of its parent company.

Reliability of Data

All data compiled are subject to nonsampling errors. Nonsampling errors can be attributed to many sources during the development or execution of the census, such as,

- inability to identify all cases in the actual universe;
- definition and classification difficulties;
- differences in the interpretation of questions;
- errors in recording or coding the data obtained; and
- other errors of collection, response, coverage, processing, and estimation for missing or misreported data.

The accuracy of these tabulated data is determined by the joint effects of the various nonsampling errors. Explicit measures of the effects of these nonsampling errors are not available. However, precautionary steps were taken in all phases of the collection, processing, and tabulation of the data in an effort to minimize the effects of nonsampling errors.

The Census Bureau obtains limited information from administrative records of other federal agencies, such as information on employment and payroll. This information is used in conjunction with other information available to the Census Bureau to develop estimates for missing items on the report form or for establishments for which responses were not received in time for publication.

Treatment of Nonresponse

Census report forms included two types of inquiries: general inquiries and industry-specific

inquiries. Data for the general inquiries, which include location, kind of business or operation, payroll, and number of employees, were available from a combination of sources for all establishments. Data for industry-specific inquiries, tailored to particular kinds of business, were available only from those establishments that completed the appropriate inquiries on the report form.

For total nonresponse cases (report forms not returned) and missing items, the establishment's administrative records information was used in conjunction with industry averages, prior period data, and outside reference sources to estimate general and industry-specific inquiries. Large nonresponse cases were contacted to obtain information for general and industry-specific inquiries, as appropriate.

When reporting was incomplete or inadequate, product-line data for Puerto Rico wholesale and retail trades were expanded on the premise that data for those establishments not reporting this information are similar to product-line data for those establishments in the same kind of business that reported this information. In the 2007 Economic Census, the method used to account for nonresponse to product-line inquiries was to expand the total of reported data to represent 100 percent of the universe. Data presented for product lines were expanded in direct relationship to total sales of all establishments included in the category. A similar expansion was done using the number of establishments that reported product lines to adjust the establishment count.

Disclosure

In accordance with federal law governing census reports (Title 13 of the United States Code, Section 9), no data are published that would disclose the operations of an individual establishment or business. However, the number of establishments in a kind-of-business classification is not considered a disclosure; therefore, this information may be released. Cell values that have a potential for revealing confidential information must be suppressed or have their values perturbed by using the "Noise Infusion" technique described below. Techniques employed to limit disclosure are discussed at [Confidentiality](#)

Noise Infusion

Noise infusion is a method of disclosure avoidance in which values for each firm are perturbed prior to table creation by applying a random noise multiplier to the magnitude data (i.e., characteristics such as receipts, payroll, and number of employees) for each company. Disclosure protection is accomplished in a manner that results in a relatively small change in the vast majority of cell values. For the 2007 Economic Census of Island Areas, each published cell value has an associated noise flag, indicating the relative amount of distortion in the cell value resulting from the perturbation of the data for the contributors to the cell. The flag for 'low noise' (G) indicates the cell value was changed by less than 2 percent with the application of noise, and the flag for 'moderate noise' (H) indicates the value was changed by 2 percent or more but less than 8 percent. Cells that have been changed by 8 percent or more are suppressed from the published tables. Additionally, other cells in the table may be suppressed for additional protection from disclosure or because the quality of the data does not meet publication standards. Though some of these suppressed cells may be derived by subtraction, the results are not official and may differ substantially from the true estimate.

The number of firms in a particular tabulation cell is not considered a disclosure of confidential information about an individual establishment; therefore, this information may be released without the infusion of noise. For an introduction to the noise confidentiality protection method, see [Using Noise for Disclosure Limitation of Establishment Tabular Data](#) by Timothy Evans, Laura Zayatz, and John Slanta in the Journal of Official Statistics (1998).

Versión en español

Fuentes de Datos

El Censo Económico de 2007 de Guam, las Islas Marianas del Norte, Puerto Rico e Islas Vírgenes de E.E.U.U. se realizó por correo. El censo económico de Samoa Americana se llevó a cabo utilizando una combinación de enumeración por correo y personal. Las descripciones sobre las fuentes de datos para las áreas insulares se presentan a continuación:

1. Guam, las Islas Marianas del Norte, Puerto Rico e Islas Vírgenes de E.E.U.U. — El cuestionario censal fue enviado a todas las firmas que empleaban una o más personas, que estuvieron activas en cualquier momento durante el año 2007 y que estaban clasificadas dentro del alcance del censo. Se utilizó un solo cuestionario para recopilar datos sobre Guam, las Islas Marianas del Norte e Islas Vírgenes de E.E.U.U. Para

recopilar los datos de Puerto Rico se utilizaron nueve cuestionarios individuales (Utilidades, Transportación y Almacenaje; Construcción; Manufactura; Comercio al por Mayor; Comercio al Detal; Finanzas, Seguros, Bienes Raíces, Alquiler y Arrendamiento; Servicios de Alojamiento; Servicios; y Cuestionario General) con versiones en inglés y español. Se le indicó a las firmas que completaran los cuestionarios y los devolvieran por correo. Se llevó a cabo un seguimiento por teléfono para obtener los datos de firmas seleccionadas que hasta entonces no habían rendido sus informes.

Los gobiernos de Guam y las Islas Marianas del Norte fueron responsables, bajo las estipulaciones del título 13 del Código de los Estados Unidos, sección 191(b), de contactar a los respondedores que no devolvieron el cuestionario censal. El Economista Jefe del Departamento del Trabajo en Guam y el Director de la División Central de Estadísticas del Departamento de Comercio de las Islas Marianas del Norte supervisaron las actividades locales. El personal del Negociado del Censo entrenó a los líderes del proyecto, supervisores y entrevistadores en Guam y las Islas Marianas del Norte. El personal del Departamento del Trabajo en Guam y del Departamento de Comercio en las Islas Marianas del Norte, que trabajó con los datos censales, fue juramentado para mantener la confidencialidad de los datos. El Negociado del Censo trabajó con el Departamento del Trabajo y a la División Central de Estadísticas para recopilar información sobre los establecimientos que no respondieron. Se le indicó a los entrevistadores que contactaran a los establecimientos por teléfono para obtener la información. Se llevaron a cabo entrevistas personales para obtener datos de establecimientos que solicitaron una visita personal o que no pudieron ser contactados por teléfono. Se cotejó que los cuestionarios necesarios fueran obtenidos.

2. Samoa Americana — Se utilizó una combinación de enumeración por correo y personal. Los datos se recopilaron para establecimientos con y sin empleados que estuvieron en operación durante el 2007. Se utilizó un solo cuestionario para recopilar los datos de Samoa Americana.
 - a. Establecimientos con empleados — Se le envió un cuestionario a establecimientos que tenían nómina para que lo completaran y devolvieran por correo al Negociado del Censo. Se llevó a cabo un seguimiento por teléfono para los establecimientos que no respondieron al censo.
 - b. Establecimientos sin empleados — Los datos para los establecimientos que no tenían empleados se recopilaron mediante la enumeración personal. El gobierno de Samoa Americana recopiló los datos bajo las estipulaciones del título 13 del Código de Estados Unidos, sección 191(b). El Jefe de Estadísticas de la División de Estadísticas del Departamento de Comercio de Samoa Americana supervisó la enumeración y el seguimiento de establecimientos sin empleados y de aquéllos referidos por el Negociado del Censo que tenían empleados pero que no respondieron al censo. Todas las personas que trabajaron con los datos censales fueron juramentadas para mantener la confidencialidad de la información obtenida por el Negociado del Censo. El líder del proyecto y los entrevistadores fueron entrenados por asesores del Negociado del Censo. Los asesores trabajaron con el personal local para garantizar que los procedimientos y normas del Negociado del Censo fueran seguidos.

Samoa Americana se dividió en cuatro zonas para la enumeración — Las islas Manu'a y en los distritos Oriental, Central y Occidental de Tutuila. Los establecimientos que no tenían empleados se identificaron en base a la Lista de Licencias Comerciales del Gobierno de Samoa Americana. Se le proporcionó a los entrevistadores una lista con los establecimientos que iban a entrevistar y un cuestionario para cada establecimiento. Cada cuestionario tenía una etiqueta con el nombre del establecimiento a entrevistar. Los entrevistadores obtuvieron información acerca de los meses en operación, ubicación física, ventas/ingresos, empleo y nómina, gastos, tipo de negocio, ventas por clase de cliente, descripción de la mercancía vendida, trabajo de construcción realizado, productos elaborados o servicios prestados, tipo de organización jurídica, estado de la propiedad y estado del establecimiento a fines de 2007. Se realizaron revisiones sistemáticas para garantizar la exactitud de los datos rendidos.

Los cuestionarios utilizados para recopilar los datos sobre los establecimientos en las áreas insulares se encuentran disponibles en www.help.econ.census.gov/econhelp/index2007.html.

La *Historia del Censo Económico del 2007 (History of the 2007 Economic Census)* en el Internet (www.census.gov/econ/www/history.html) presenta un examen más detallado de la metodología del censo.

Clasificación Industrial de los Establecimientos

Las clasificaciones para todos los establecimientos están basadas en la edición de 2007 del manual del *Sistema Norteamericano de Clasificación Industrial de los Estados Unidos*. El método de asignar clasificaciones y el nivel de detalle al cual los establecimientos son clasificados, depende de que el cuestionario haya sido recibido.

- Los establecimientos que devuelven los informes son clasificados en base a su auto-designación, detalle/descripción de líneas de productos vendidas, tipo de construcción realizada, productos elaborados u otros servicios prestados y otras respuestas específicas sobre la industria.
- Los establecimientos que no devolvieron el cuestionario son clasificados en base a la información obtenida en censos anteriores y registros administrativos de otras agencias de gobierno.

Base Informativa

El censo económico es realizado en base al establecimiento. Se requiere que una compañía que opera en más de una localidad llene un informe para cada tienda, fábrica, taller u otra localización. A cada establecimiento se le asigna una clasificación basada en su actividad principal y no en la de su compañía matriz.

Confiabilidad de los Datos

Los datos recopilados en esta publicación están sujetos a errores ajenos al muestreo. Estos errores pueden ocurrir por muchas razones durante el desarrollo o levantamiento del censo:

- incapacidad para identificar todos los casos en el universo;
- dificultades con las definiciones y clasificaciones;
- discrepancias en la interpretación de las preguntas;
- errores en el registro o codificación de los datos obtenidos; y
- otros errores relacionados con la recopilación, respuesta, cobertura, procesamiento y estimados que se utilizan para los records sin respuestas o respuestas incorrectas.

La exactitud de los datos tabulados es determinada por el conjunto de efectos que tienen los errores ajenos al muestreo. No existen medidas explícitas de los efectos que tienen dichos errores. Se han tomado medidas de precaución durante las fases de recopilación, procesamiento y tabulación de los datos para minimizar los efectos de los errores ajenos al muestreo.

El Negociado del Censo obtiene información limitada extraída de registros administrativos de otras agencias federales, tales como empleo y nómina. Dicha información se utiliza conjuntamente con otra información disponible al Negociado del Censo para estimar las preguntas sin respuesta (dejadas en blanco) del cuestionario o los establecimientos cuyas respuestas no fueron recibidas a tiempo para la publicación de los datos censales.

Interpretación de la Falta de Respuestas

Los informes censales incluyen dos tipos de preguntas, preguntas generales y preguntas específicas sobre una industria en particular. Las respuestas a las preguntas generales, incluyendo ubicación física, tipo de negocio u operación, nómina y número de empleados, fueron obtenidas de diversas fuentes de información para todos los establecimientos. Las respuestas a las preguntas específicas formuladas para obtener información acerca de ciertos tipos de negocio, fueron obtenidas únicamente de los establecimientos que contestaron las preguntas apropiadas en el cuestionario.

Para los casos que no respondieron (cuestionarios no devueltos) o que no respondieron a todas las preguntas (preguntas dejadas en blanco) se usó la información provista en los registros administrativos de los establecimientos conjuntamente con los promedios industriales, datos de períodos anteriores y otras fuentes de referencia externas para estimar las respuestas de preguntas generales y específicas. Los casos grandes, aquellos con ventas, envíos, ingresos o entradas cuantiosas que no respondieron, fueron contactados para obtener respuestas sobre preguntas generales y específicas.

Los datos por líneas de productos para establecimientos de comercio al por mayor y al detal fueron expandidos utilizando la premisa de que los datos por líneas de productos para

aquellos establecimientos que no reportaron esta información son similares a los datos por líneas de productos para los establecimientos en el mismo tipo de negocio que sí reportaron esta información. En el 2007, el método que se utilizó para representar casos sin respuestas a las preguntas sobre líneas de productos fue la expansión del total de datos reportados para representar el 100 por ciento del universo. Los datos presentados para las líneas de productos fueron expandidos en relación directa al total de ventas de todos los establecimientos incluidos en la categoría. De forma similar, se hizo una expansión utilizando el número de establecimientos que reportaron líneas de productos para ajustar el número de establecimientos.

Divulgación

De acuerdo con la ley federal que rige los informes censales (título 13 del Código de los Estados Unidos, sección 9), los datos que se publican no divulgan las operaciones de un establecimiento o negocio en particular. Sin embargo, el número de establecimientos clasificados bajo un tipo de negocio no constituye una divulgación, por lo tanto, esta información puede ser publicada. Los valores pertenecientes a celdas que podrían revelar información confidencial, deben ser suprimidos o alterados utilizando la técnica de "Infusión de Ruido" ("Noise Infusion", en inglés), la cual se describe a continuación. Las técnicas utilizadas para limitar la divulgación se explican en [Confidencialidad](#).

Infusión de Ruido

La infusión de ruido es un método para evitar la divulgación de información. Mediante este método los datos de envergadura (por ejemplo, características tales como ingresos, nómina y número de empleados) para cada compañía son alterados antes de crear las tablas estadísticas. Dicha alteración se obtiene multiplicando los valores de cada firma por un factor aleatorio. El método se aplicó, de manera que los cambios en los datos fueran relativamente pequeños en la mayoría de las celdas. Cada celda publicada en el Censo Económico de 2007 de las Áreas Insulares, está asociada con una letra que indica la cantidad relativa de distorsión como resultado de las alteraciones hechas a sus contribuidores. La letra para 'ruido menor' (G) indica que el cambio ocurrido en la celda fue menor de 2 por ciento luego de aplicar el factor. La letra para un 'ruido moderado' (H) indica que el valor cambió por 2 por ciento o más, pero menos de 8 por ciento. Las celdas que han cambiado por 8 por ciento o más, no se publican. De igual forma, otras celdas en la tabla pueden ser suprimidas como protección adicional o si la calidad de los datos no permite la publicación de los mismos de acuerdo a las normas de publicación. Aunque alguna de las celdas suprimidas puedan derivarse restando, los resultados no son oficiales y pueden diferir considerablemente del estimado verdadero.

El número de firmas en una celda en particular no divulga información confidencial sobre un establecimiento en específico. Por lo tanto, dicha información puede ser divulgada sin protección alguna. Para una introducción sobre la protección de la confidencialidad que ofrece el método de infusión de ruido, véa [Using Noise for Disclosure Limitation of Establishment Tabular Data](#) por Timothy Evans, Laura Zayatz y John Slanta, en la Revista de Estadísticas Oficiales (Journal of Official Statistics) de 1998.

 **Data Item:** [2007 North American Industry Classification System \(NAICS\) code](#)

Description: The North American Industry Classification System was developed by representatives from the United States, Canada, and Mexico, and replaces each country's separate classification systems with one uniform system for classifying industries. In the United States, NAICS replaces the Standard Industrial Classification, a system that Federal, State, and local governments, the business community, and the general public have used since the 1930s.

This industry classification system enables North American Free Trade Agreement (NAFTA) partners--the United States, Canada, and Mexico--to better compare economic and financial statistics and ensure that such statistics keep pace with the changing economy.

Valid Values:

NAICS2007 Code	Meaning
00	Total for all sectors
21	Mining, quarrying, and oil and gas extraction

 Data Item: **Annual payroll (\$1,000)**

Description: Annual Payroll

Payroll includes all forms of compensation, such as salaries, wages, commissions, dismissal pay, bonuses, vacation allowances, sick-leave pay, and employee contributions to qualified pension plans paid during the year to all employees. For corporations, payroll includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service (IRS) on Form 941-SS (for American Samoa, Guam, Northern Mariana Islands, and VI) and Form 941-PR (for Puerto Rico).

Nómina Anual

La nómina incluye todo tipo de compensación, tales como, salarios, sueldos, comisiones, bonificaciones, pagos por vacaciones, enfermedad y contribuciones de empleados a planes de pensiones calificados pagados durante el año a todos los empleados. Para las corporaciones, la nómina incluye las cantidades pagadas a los oficiales y ejecutivos. Si el establecimiento no es una corporación, la nómina excluye los beneficios y compensaciones pagadas a los propietarios y socios. La cantidad de la nómina de sueldos se declara sin restar los pagos por seguro social, contribuciones sobre ingresos, primas de seguro, cuotas de sindicatos y otros ajustes. La definición de nómina que se presenta es la misma que empleó el Servicio de Rentas Internas (IRS) en el Formulario 941-SS (para Samoa Americana, Guam, Islas Marianas del Norte e Islas Vírgenes de E.E.U.U.) y el Formulario 941-PR (para Puerto Rico)

 Data Item: **E-commerce sales, shipments, receipts, revenue, or business done as a percent of total sales**

Description: E-commerce as Percent of Total Sales

Total dollar value of e-commerce sales, receipts, revenue, or shipments for the establishments that reported e-commerce transactions, as a percent of total sales, receipts, revenue, or shipments. E-commerce includes sales, receipts, revenue, or shipments from any transaction completed over an Internet, Extranet, Electronic Data Interchange (EDI) network, electronic mail, or other online system. Payment for these goods or services may or may not be made online.

Porcentaje del Total de Ventas del Comercio Electrónico

Valor total en dólares de ventas, ingresos, entradas o envíos de establecimientos que reportaron transacciones de comercio electrónico como un porcentaje del total de ventas, ingresos, entradas, o envíos. El comercio electrónico incluye ventas, ingresos, entradas o envíos provenientes de cualquier transacción realizada a través del Internet, Extranet, Red Electrónica de Intercambio de Datos (Electronic Data Interchange (EDI) network), correo electrónico o cualquier otro sistema en línea.

 Data Item: **Class of customer**

Description: **Class of Customer**

[Versión en español](#)

Represents the class of customer to whom the sales were made. The classes of customer presented for each island area vary and include:

American Samoa

- Wholesale establishments — Establishments that buy to sell merchandise to other businesses from a warehouse or office.
- Household consumers and individual users — Household and individual users buying goods or service for personal consumption.
- Retailers — Establishments (including retail chain organizations, independent stores, or department stores) that buy for resale to sell merchandise in small quantities to the general public.
- Construction firms — Contractors and builders who buy goods and services for use in construction rather than for resale.
- Farmers for farm use — Farmers buying goods and services for business use.
- Restaurants, food services, and nightclubs — Establishments that buy goods and services for food and drinking related businesses.
- Hotels — Establishments that buy goods and services for business use and provide short term accommodation.
- Travel agencies and other passenger transportation services — Establishments that buy goods and services for traveling and related transportation services.
- Other service establishments including truck and passenger car rental and leasing — Establishments that buy goods and services for freight transportation and vehicles rental or leasing to firms or individuals.
- Apparel manufacturers — Establishments that buy goods and services for apparel production.
- Fishing fleets — Establishments that buy goods and services for fishing activities.
- Fish canning manufacturers — Establishments that buy goods and services for canning seafood.
- Other manufacturer establishments and quarries — Establishments that buy goods and services for production purposes other than apparel production.

- Other manufacturer establishments and quarries — Establishments that buy goods and services for other production purposes than apparel production.
- Banks, insurance, and real estate companies — Establishments that buy goods and services for financial and/or real estate related businesses.
- Government bodies — Includes sales to the Federal government (including the military, post exchanges, Government Services Administration, Government Printing Office, and Similar Federal agencies) and to Commonwealth and local governments buying goods and services for their own use.
- All other customers, not specified — Include other classes of customer that are not specified in the categories above.

Puerto Rico

Manufacturing:

- Wholesale establishments — Establishments that buy to sell merchandise to other businesses from a warehouse or office.
- Household consumers — Household and individuals buying goods or services for personal consumption.
- Retailers — Establishments (including retail chain organizations, independent stores, or department stores) that buy for resale to sell merchandise in small quantities to the general public.
- Construction firms — Contractors and builders who buy goods and services for use in construction rather than for resale.
- Other manufacturer establishments — Establishments that buy goods and services for production purposes.
- Commonwealth government — Includes sales to the Commonwealth of Puerto Rico government.
- All other classes of customers — Includes other classes of customer that are not specified in the categories above.

Information on products shipped and contract receipts is presented at the 3-digit NAICS level and does not include receipts for nonmanufacturing activities, e.g., sale of scrap and refuse; other miscellaneous receipts, such as repair or renovation work; and the merchandising of products simply bought and resold. Therefore, the figure for value of shipments reported in this table will generally be less than in other tables where nonmanufacturing activities are included.

Retail:

- Household consumers and individual users — Household and individual users buying merchandise for personal consumption.
- Retailers for resale — Establishments (including retail chain organizations, independent stores, or department stores) that buy for resale to sell merchandise to the general public.
- Wholesale establishments for resale — Establishments (including merchant wholesalers, agents, brokers, and commission merchants) that buy to sell merchandise to other businesses from a warehouse or office.
- Manufacturing and mining industrial users for use as input goods in production — Establishments located in Puerto Rico that buy merchandise for production purposes.
- Restaurants, hotels, food services, and contract feeding — Establishments (including caterers, contract feeders, and all eating and drinking establishments) that buy merchandise for food and drinking related businesses.

- Export sales — Sales to buyers outside of Puerto Rico, including those to Foreign Sales Corporations (FSCs).
- Government bodies — Includes sales to the federal government (including the military, post exchanges, General Services Administration (GSA), Government Printing Office (GPO), and similar federal agencies) and to Commonwealth and municipal governments buying merchandise for their own use.
- All other customers, not specified — Includes other classes of customer that are not specified in the categories above.

Wholesale:

- Household consumers and individual users — Household and individual users buying merchandise for personal consumption.
- Retailers for resale — Establishments (including retail chain organizations, independent stores, or department stores) that buy for resale to sell merchandise to the general public.
- Wholesale establishments for resale — Establishments (including merchant wholesalers, agents, brokers, and commission merchants) that buy to sell merchandise to other businesses from a warehouse or office.
- Repair shops for use in repair work — Establishments buying merchandise for use in repair work.
- Manufacturing and mining industrial users for use as input goods in production — Establishments located in Puerto Rico that buy merchandise for production purposes.
- Restaurants, hotels, food services, and contract feeding — Establishments (including caterers, contract feeders, and all eating and drinking establishments) that buy merchandise for food and drinking related businesses.
- Businesses for end use in their own operation, not for resale or production — Laboratories, institutions, public utilities, service businesses, and other such users buying merchandise for business use rather than for resale.
- Building contractors, heavy construction, and special trade contractors — Contractors and builders who buy merchandise for use in construction rather than for resale.
- Farmers for use in farm production — Farmers buying merchandise for use in agricultural production.
- Federal government — Includes sales to the federal government (including the military, post exchanges, General Services Administration (GSA), Government Printing Office (GPO), and similar federal agencies) buying merchandise for their own use.
- Export sales — Sales to buyers outside of Puerto Rico, including those to Foreign Sales Corporations (FSCs).
- Commonwealth government — Includes sales to the Commonwealth government.
- Municipal government — Includes sales to municipal governments.
- All other customers, not specified — Includes other classes of customer that are not specified in the categories above.

U.S. Virgin Islands

- Local residents — Household and individuals buying goods or services for personal consumption.

- **Todos los otros clientes, que no están especificados** — Incluye otras clases de cliente que no están especificadas en las categorías anteriores.

Puerto Rico

Manufactura:

- **Establecimientos de Comercio al por Mayor** — Establecimientos que compran para vender a otros negocios desde un almacén u oficina.
- **Consumidores domésticos** — Usuarios domésticos que compran mercancía para consumo personal.
- **Detallistas** — Establecimientos (incluyendo cadenas detallistas, tiendas independientes o tiendas por departamento) que compran para revender la mercancía al público en general en pequeñas cantidades.
- **Compañías de construcción** — Contratistas y constructores quienes compran mercancía para uso en la construcción y no para la reventa.
- **Otros establecimientos manufactureros** — Establecimientos que compran mercancía y servicios para la producción.
- **Gobierno del Estado Libre Asociado** — Incluye ventas realizadas al gobierno del Estado Libre Asociado de Puerto Rico.
- **Todos los otros clientes, que no están especificados** — Incluye otras clases de cliente que no están especificadas en las categorías anteriores.

La información sobre los productos expedidos e ingresos recibidos por trabajos contratados es presentada al nivel de 3 dígitos de NAICS y no incluye los ingresos obtenidos por llevar a cabo actividades no manufactureras, por ejemplo, la venta de desperdicios y desechos; otros trabajos misceláneos como los de reparación o renovación; y la distribución y venta de productos que simplemente son comprados y revendidos. Por lo tanto, la cifra correspondiente al valor de los productos expedidos que aparece en las tablas es, por lo general, menor que la de otras tablas donde se incluyen actividades no manufactureras.

Comercio al por Menor:

- **Consumidores domésticos y usuarios individuales** — Usuarios domésticos e individuales que compran mercancía para consumo personal.
- **Detallistas para la reventa** — Establecimientos (incluyendo cadenas detallistas, tiendas independientes o tiendas por departamento) que compran para revender la mercancía al público en general.
- **Establecimientos mayoristas para la reventa** — Establecimientos (incluyendo agentes de ventas, mayoristas, agentes, corredores y vendedores a comisión) que compran para vender mercancía a otros negocios desde un almacén u oficina.
- **Usuarios industriales manufactureros y mineros para uso como materiales en la producción** — Establecimientos localizados en Puerto Rico que compran mercancía para la producción.
- **Restaurantes, hoteles, servicios de preparación de comida y preparación de alimentos bajo contrato** — Establecimientos (incluye servicios de comida y bebida para ocasiones (“caterers”) y todos los establecimientos que se dedican a negocios de comida y bebida) que compran mercancía para uso en negocios que están relacionados con servicios de comida y bebida.
- **Ventas a exportadores** — Ventas hechas a compradores fuera de Puerto Rico, incluyendo a Corporaciones de Ventas al Extranjero (“Foreign Sales Corporations (FSCs)”).
- **Gobierno** — Incluye ventas realizadas al gobierno federal (incluyendo el ejército, comisarías militares, Administración de Servicios Generales (GSA), Oficina de Imprenta del Gobierno (GPO), y agencias federales similares) y al gobierno del Estado Libre Asociado y municipal que compran mercancía y servicios para uso propio.
- **Todos los otros clientes, que no están especificados** — Incluye otras clases de cliente que no están especificadas en las categorías anteriores.

Comercio al por Mayor:

- **Consumidores domésticos y usuarios individuales** — Usuarios domésticos e individuales que compran mercancía para consumo personal.
- **Detallistas para la reventa** — Establecimientos (incluyendo cadenas detallistas, tiendas independientes o tiendas por departamento) que compran para revender la mercancía al público en general.

- Establecimientos mayoristas para la reventa — Establecimientos (incluyendo agentes de ventas, mayoristas, agentes, corredores y vendedores a comisión) que compran para vender mercancía a otros negocios desde un almacén u oficina.

Sector: [2007 Economic Census of Island Areas](#)

Series: [Geographic Area Series](#)

Data Set: [Sector 00: 2007 Economic Census of Island Areas: Geographic Area Series: General Statistics by Kind of Business and Legal Form of Organization for American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and Virgin Islands: 2007](#)

 Data Item: **Legal form of organization code**

Description: **Legal Form of Organization**

The 2007 Economic Census of Island Areas presents data for establishments by the following legal forms of organization:

- Corporations — An incorporated business created by statute as a legal entity separate and distinct from its owners. (Presented for all five island areas.)
- Locally-held corporations — Corporate entities organized under corporate laws of American Samoa and registered locally. These entities do not require a permit from the Governor of American Samoa to do business transactions. (Presented for American Samoa only.)
- Foreign-held corporations — Corporate entities that are organized under laws other than American Samoa's corporate laws. These entities require a business transaction permit from the Governor of American Samoa to do business in the territory. (Presented for American Samoa only.)
- Private nonprofit corporations — Corporate entity whose shares are not traded on the open market. Profits are used to promote the goals of the corporation and not to benefit the shareholders financially. (Presented for Puerto Rico only.)
- Private for profit corporations — Corporate entity whose shares are not traded on the open market. Shareholders benefit financially from the profit of the corporation. (Presented for Puerto Rico only.)
- Public corporations — Corporate entity whose shares are traded on the open market. Shareholders benefit financially from the profits of the corporation. (Presented for Puerto Rico only.)
- Type of corporate legal form of organization not reported (or "Status not reported") — Include corporate entities that did not report a type of corporation. (Presented for American Samoa and Puerto Rico only)
- Individual proprietorships — An unincorporated business owned by an individual. (Presented for American Samoa, Guam, Puerto Rico, and Virgin Islands only.)
- Partnerships — An unincorporated business owned by two or more persons having a shared financial interest in the business. (Presented for American Samoa, Guam, Puerto Rico, and Virgin Islands only.)
- Cooperative associations — A legal entity where a group of individuals join together to conduct an economic activity of mutual benefit. Most cooperatives are controlled by its members in an egalitarian fashion. (Presented for Puerto Rico only.)
- Other legal forms of organization — Includes businesses that reported other legal form of organization not listed above. (Presented for all five island areas.)

Tipo de Organización Jurídica

El Censo Económico de 2007 de las Áreas Insulares presenta datos para los establecimientos según los siguientes tipos de organización jurídica:

- Corporaciones — Negocio incorporado creado por un estatuto como una entidad legal separada de los dueños. (Presentado para las cinco áreas insulares.)
- Corporaciones locales — Entidades corporativas que están organizadas bajo las leyes corporativas de Samoa Americana y registradas localmente. Dichas entidades no requieren un permiso proveniente del Gobernador de Samoa Americana para realizar transacciones comerciales. (Presentado para Samoa Americana solamente.)
- Corporaciones extranjeras — Entidades corporativas que están organizadas bajo leyes que no forman parte de las leyes corporativas de Samoa Americana. Dichas entidades requieren un permiso proveniente del Gobernador de Samoa Americana para realizar transacciones comerciales en el territorio. (Presentado para Samoa Americana solamente.)
- Privada sin fines de lucro — Entidad corporativa cuyas acciones no son negociables en el mercado. Las ganancias obtenidas son utilizadas para promover las metas de la corporación y no para el beneficio de los dueños. (Presentado para Puerto Rico solamente.)
- Privada con fines de lucro — Entidad corporativa cuyas acciones no son negociables en el mercado. E

dichas entidades, los accionistas se benefician de las ganancias de la corporación. (Presentado para Puerto Rico solamente.)

- Pública — Entidad corporativa cuyas acciones son negociables en el mercado. En dichas entidades, los accionistas se benefician de las ganancias de la corporación. (Presentada para Puerto Rico solamente.)
- Tipo de organización jurídica corporativa no reportada (o "Estado no reportado") — Incluye entidades corporativas que no se identificaron con ningún tipo de corporación. (Presentado para Samoa Americana y Puerto Rico solamente.)
- Propiedad individual — Negocio que no está incorporado y donde el dueño es un individuo. (Presentado para Samoa Americana, Guam, Puerto Rico, y las Islas Vírgenes de E.E.U.U. solamente.)
- Sociedad de propietarios — Negocio que no está incorporado y donde los dueños comparten intereses financieros. (Presentado para Samoa Americana, Guam, Puerto Rico, y las Islas Vírgenes de E.E.U.U. solamente.)
- Asociaciones cooperativas — Entidad legal dirigida por un grupo de individuos que se unen para realizar una actividad económica para el beneficio mutuo. La mayoría de las cooperativas son controladas por sus miembros de forma igualitaria. (Presentado para Puerto Rico solamente.)
- Otras formas de organización jurídica — Incluye establecimientos que indicaron otra forma de organizacion juridica que no se especificó anteriormente. (Presentado para las cinco áreas insulares.)

 Data Item: **Ownership status code**

Description: **Ownership Status**

Ownership status refers to the citizenship of the owner or owners of an establishment located in American Samoa, Guam, or Northern Mariana Islands. Businesses reported the majority ownership status categories (only one status) that applied. The ownership status presented for each Island Area varies, and include:

American Samoa

- U.S Citizen
- U.S. national
- Chinese citizen
- Samoan citizen
- Filipino citizen
- Korean citizen
- Dual citizenship/other citizenship
- Citizenship not known/not determinable
- Citizenship not reported

Guam

- U.S. citizen - Guam born
- U.S. citizen - other
- Japanese citizen
- Filipino citizen
- Korean citizen
- Dual citizenship/other citizenship
- Citizenship not known/not determinable
- Citizenship not reported

Northern Mariana Islands

- U.S. citizen -CNMI born (Chamorro or Carolinian)
- U.S. citizen -CNMI born (NOT Chamorro or Carolinian)
- U.S. citizen - not CNMI born
- Chinese citizen
- Japanese citizen
- Filipino citizen
- Korean citizen
- Dual citizenship/other citizenship
- Citizenship not known/not determinable
- Citizenship not reported

Ciudadanía de los Dueños

Ciudadanía del dueño o dueños de un establecimiento localizado en Samoa Americana, Guam or o las Islas Marianas del Norte. Los negocios reportaron la ciudadanía de la mayoría de los dueños (una ciudadanía solamente). La ciudadanía presentada para cada área insular varía e incluye las dudadanías antes mencionadas.

▶ Data Item: **Type of operation code**

Description: **Types of Operation**

In addition to being classified by kind of business, wholesale establishments are also classified by type of operation according to the ownership of the business and character of the transactions. For Puerto Rico only, establishments in wholesale trade are grouped into the following two major types of operation classifications:

- **Merchant wholesalers.** Establishments primarily engaged in buying and selling goods on their own account. Included are such types of establishments as wholesale distributors and jobbers, importers, exporters, own-brand importers/marketers, terminal and country grain elevators, farm products assemblers, and manufacturers' sales branches or offices. Merchant wholesalers usually operate from their own warehouse, where they receive and sell goods for their customers.
- **Agents, brokers, and commission merchants.** Establishments primarily engaged in arranging the purchase or sale of goods owned by others or purchasing goods generally on a commission basis. Included are such types of operations as auction companies, agents and brokers, commission merchants, manufacturers' agents, import/export agents and brokers, and electronic markets. The "sales" of agents, brokers, and commission merchants are the gross sales (or purchase) value of the goods in the transactions negotiated. These establishments operate from offices and generally do not own or handle the goods they sell.

In this report, data are shown separately for merchant wholesalers. Data for agents, brokers, and commission merchants are presented under "Other operating types."

Tipos de Operación

Además de haberse clasificado por tipo de negocio, los establecimientos de comercio al por mayor también están clasificados según el tipo de operación y de acuerdo al tipo de propiedad que fuera el negocio y a la naturaleza de las transacciones. Los establecimientos de comercio al por mayor se agrupan en dos clasificaciones principales de tipo de operación:

- **Comerciantes mayoristas.** Establecimientos que se dedican principalmente a la compra y venta de mercancía por cuenta propia. Se incluyen tipos de establecimientos tales como distribuidores mayoristas o intermediarios, importadores, exportadores, importadores y mercaderes de marca propia, elevadores de grano utilizados en las terminales y en el campo, acaparadores de productos agrícolas y sucursales u oficinas de ventas de manufactureros. Los comerciantes mayoristas usualmente operan desde su propio almacén, donde reciben y venden mercancía a sus clientes.
- **Agentes, corredores y comerciantes a comisión.** Establecimientos que se dedican principalmente a tramitar la compra o venta de mercancía que es propiedad de otros o compran mercancía generalmente a base de comisión. Se incluyen tipos de operaciones tales como empresas subastadoras, agentes y corredores, comerciantes a comisión, agentes manufactureros, agentes y corredores de importación/exportación y los mercados electrónicos. Las "ventas" de los agentes, corredores y comerciantes a comisión constituyen el valor bruto de venta (o de compra) de los artículos que implican las transacciones negociadas. Estos establecimientos operan desde oficinas y generalmente no son dueños ni manejan los artículos que venden.

En este informe se presentan los datos sobre los comerciantes mayoristas por separado. Los datos para los agentes, corredores y comerciantes a comisión se presentan bajo la categoría "Otros tipos de operación".

 Data Item: **Paid employees for pay period including March 12 (number)**

Description: Paid Employees

Paid employees consist of full-time and part-time employees, including salaried officers and executives of corporations. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The employment figure for the Northern Mariana Islands, Guam, and American Samoa includes paid employees whether or not FICA taxes were withheld. For Puerto Rico and the U.S. Virgin Islands, the definition of paid employees is the same as that used by the Internal Revenue Service (IRS) Form 941-PR (for Puerto Rico) and Form 941-SS (for the U.S. Virgin Islands).

Empleados Remunerados

Comprende el número de empleados remunerados de jornada completa y parcial, incluyendo los oficiales asalariados y ejecutivos de corporaciones. También están incluidos los empleados a quienes se les pagaron días feriados o días libres tomados por vacaciones o enfermedad. Sin embargo, no están incluidos los propietarios o socios de negocios que no están incorporados. La cifra de empleo para las Islas Marianas del Norte, Guam y Samoa Americana incluye empleados a los que se les retuvo o no impuestos establecidos bajo la Ley Federal de Contribuciones de Seguro (FICA). Para Puerto Rico y las Islas Vírgenes de E.E.U.U., la definición de empleados que se presenta es la misma que empleó el Servicio de Rentas Internas (IRS) en el Formulario 941-PR (para Puerto Rico) y el Formulario 941-SS (para las Islas Vírgenes de E.E.U.U.).

Description: **Establishments**

[Versión en español](#)

General Definition

An establishment is a single physical location at which business is conducted and/or services are provided. It is not necessarily identical to a company or enterprise, which may consist of one establishment or more. Economic census figures represent a summary of reports for individual establishments rather than companies. For cases where a census report was received, separate information was obtained for each location where business was conducted. When administrative records of other federal agencies were used instead of a census report, no information was available on the number of locations operated. Each economic census establishment was tabulated according to the physical location at which the business was conducted. The count of establishments represents those in business at any time during 2007.

When two activities or more were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment. The entire establishment was classified on the basis of its major activity and all data for it were included in that classification. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted at a single location under a single ownership, separate establishment reports for each of the different activities were obtained in the census.

Sector-specific Information

Construction sector. Establishments are defined as a relatively permanent office or other place of business where the usual business activities related to construction are conducted. Establishments do not represent each project or construction site. Includes all establishments that were in business at any time during the year. It covers all full-year and part-year operations. Construction establishments that were inactive or idle for the entire year were not included.

Manufacturing sector. Includes establishments (plants) primarily engaged in manufacturing, processing, and assembling component parts of products.

Retail trade. Includes establishments primarily engaged in selling merchandise for personal or household consumption and in rendering services incidental to the sale of the goods. Leased retail departments located in service establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

Utilities; Transportation and Warehousing; Information; Finance and Insurance; Real Estate and Rental and Leasing; Professional, Scientific, and Technical Services; Management of Companies and Enterprises and Remediation Services; Administrative and Support and Waste Management and Remediation Services; Educational Services; Health Care and Social Assistance; Arts, Entertainment, and Recreation; Accommodation and Food Services; and Other Services (Except Public Administration) sectors. Includes establishments primarily engaged in a wide variety of services to individuals, businesses, government establishments, and other organizations. Leased service departments (separately owned businesses operated as departments or concessions of other service establishments or of retail businesses, such as a separately owned shoeshine parlor in a barber shop, or beauty shop in a department store) are treated as separate service establishments for census purposes.

Wholesale trade. Includes wholesale establishments selling merchandise at wholesale to retailers, industrial, institutional, and other nonhousehold consumers.

[Versión en español](#)

Establecimientos

Definición General

Un establecimiento es una ubicación física individual donde se llevan a cabo actividades comerciales y/o se prestan servicios. Un establecimiento no es necesariamente idéntico a una compañía o empresa, la cual podría tener uno o más establecimientos. Las estadísticas del censo económico representan un resumen de los informes individuales de cada establecimiento y no de las compañías. Por medio de los cuestionarios censales recibidos, se obtuvo información detallada para cada ubicación donde se llevó a cabo un negocio. Los registros administrativos de otras agencias federales fueron utilizados para determinar el número de ubicaciones cuando la información no estaba disponible en el cuestionario. Cada establecimiento dentro del censo económico fue tabulado según la ubicación física en la que se llevó a cabo el negocio. El número de establecimientos representa aquellos negocios que estuvieron en operación en cualquier momento durante el 2007.

Cuando dos actividades o más se llevan a cabo en un establecimiento que pertenece a un solo dueño, todas las actividades son agrupadas como parte de las actividades del mismo. La clasificación del establecimiento se establece a base de la actividad principal conducida en el mismo y todos los datos fueron incluidos bajo esa clasificación. Sin embargo, se obtuvo un informe para cada una de las actividades del establecimiento, cuando en una ubicación física individual habían actividades económicas diferentes y separadas para las cuales existían clasificaciones industriales.

Información Específica sobre el Sector

Construcción. Los establecimientos son definidos como una oficina relativamente permanente u otro negocio donde se realizan actividades relacionadas a la construcción. Dichos establecimientos no representan un solo proyecto de construcción, si no varios proyectos. La definición incluye todos los establecimientos que estuvieron en operación durante cualquier momento del año, ya sea todo el año o parte del mismo. No se incluyeron los establecimientos de construcción que estuvieron inactivos durante el año entero.

Manufactura. Incluye establecimientos (plantas, fábricas) que se dedican principalmente a la manufactura, procesamiento y montaje de las partes que componen los productos.

Comercio al detal. Incluye establecimientos que se dedican principalmente a la venta de mercancía para consumo personal o doméstico y a rendir servicios relacionados con la venta de artículos. Los departamentos detallistas arrendados que están localizados dentro de establecimientos que proveen servicios (por ejemplo, tiendas localizadas en hoteles) son considerados establecimientos detallistas independientes.

Sectores de Utilidades; Transportación y Almacenaje; Información; Finanzas y Seguros; Bienes Raíces y Alquiler y Arrendamiento; Servicios Profesionales, Científicos y Técnicos; Administración de Compañías y Empresas; Servicios Administrativos de Apoyo y Manejo de Desperdicios y Remediación; Servicios Educativos; Cuidado de Salud y Asistencia Social; Arte, Entretenimiento y Recreación; Servicios de Alojamiento y Preparación de Comida; y Otros Servicios (Excepto Administración Pública). Incluye establecimientos que se dedican principalmente a una amplia variedad de servicios a individuos, negocios, establecimientos de gobierno y otras organizaciones. Para propósitos del censo, los departamentos arrendados de servicio (negocios controlados independientemente que operan como departamentos o concesiones de otros establecimientos de servicio o detallistas, tales como servicio de brillo de zapatos dentro de una barbería o salón de belleza dentro de una tienda por departamento) son considerados establecimientos de servicio independientes.

Comercio al por mayor. Incluye establecimientos mayoristas que venden mercancía a detallistas, industrias, instituciones y otros consumidores no domésticos.

 Data Item: **Operating expenses (\$1,000)**

Description: Operating Expenses

Operating expenses includes payroll, employee benefits, interest and rent expenses, payroll taxes, cost of supplies used for operation, depreciation expenses, fundraising expenses, contracted or purchased services, and other expenses charged to operations during 2007. Expenses exclude cost of goods sold, income taxes, and interest for wholesale establishments; outlays for the purchase of real estate; construction and all other capital improvements; funds invested; assessments or dues paid to the parent or other chapters of the same organization; and, for fundraising organizations, funds transferred to charities and other organizations.

Gastos de Operación

Los gastos de operación incluyen nómina de sueldos, beneficios pagados al empleado, gastos en intereses y alquiler, impuestos de nómina, costo de suministros utilizados para la operación, gastos de depreciación, gastos relacionados con la recaudación de fondos, servicios contratados o comprados y otros gastos incurridos en las operaciones durante el 2007. Los gastos excluyen el costo de la mercancía vendida, contribuciones sobre ingreso e intereses para establecimientos mayoristas; desembolsos para la compra de bienes raíces; gastos de construcción y todas las otras mejoras de capital; fondos invertidos; aportaciones adicionales o cuotas pagadas a la compañía matriz u otros capítulos de la misma organización; y para organizaciones que se dedican a recaudar fondos, fondos transferidos a organizaciones caritativas y otras organizaciones.

 Data Item: **Value of sales, receipts, revenue, shipments, or business done (\$1,000)**

Description: **Sales, Receipts, Revenue, Shipments**

[Versión en español](#)

Includes total sales, receipts or revenue received from merchandise sold and/or services rendered by establishments within the scope of the economic census, whether or not payment was received in 2007. For American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands, the value of shipments and business done are also included for the manufacturing and construction sectors, respectively. Figures may contain duplication, since products of some industries are used as materials for others and work (and receipts) of one firm may be subcontracted to other firms and included in the other firm's receipts. The definition of sales, receipts, or revenue is included in the information provided below.

Sector-Specific Information

42 Wholesale Trade

Includes merchandise sold for cash or credit by establishments primarily engaged in wholesale trade; gross selling value of goods that establishments sold or purchased on a commission, brokerage, consignment, or agency basis for others; receipts from rental of vehicles, equipment, instruments, tools, etc.; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; gasoline, liquor, tobacco, and other excise taxes that are paid by the manufacturer and included in the cost of goods purchased; receipts from the rental and leasing of merchandise; and shipping and handling receipts.

Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from sales. Sales do not include carrying or other credit charges; sales and other taxes collected from customers and forwarded to taxing authorities; nonoperating income from such sources as investments, rental or sales of real estate, and interest; and commissions received for selling and buying goods.

Sales do not include wholesale sales made by manufacturers, retailers, service establishments, or other businesses whose primary activity is other than wholesale trade. They do include receipts other than from the sale of merchandise at wholesale, e.g., service receipts, retail sales, etc., by establishments primarily engaged in wholesale trade.

44-45 Retail Trade

Includes merchandise sold for cash or credit by establishments primarily engaged in retail trade; amounts received from customers for layaway purchases; receipts from rental of vehicles, equipment, instruments, tools, etc.; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; the total value of service contracts; gasoline, liquor, tobacco, and other excise taxes that are paid by the manufacturer or wholesaler and included in the cost of goods purchased by the establishment; fees for processing money orders and cashing checks; and shipping and handling receipts.

Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from sales. Sales do not include carrying or other credit charges; sales and other taxes collected from customers and forwarded to taxing authorities; gross sales and receipts of departments or concessions operated by other companies; nonoperating income from sources such as investments, rental or sale of real estate, and interest; and commissions or receipts from the sale of government lottery tickets.

Sales do not include retail sales made by manufacturers, wholesalers, service establishments, or other businesses whose primary activity is other than retail trade. They do include receipts other than from the sale of merchandise at retail, e.g., service receipts, sales to industrial users, and sales to other retailers, by

establishments primarily engaged in retail trade.

Selected Sectors (21, Mining; 22, Utilities; 48-49, Transportation and Warehousing; 51, Information; 52, Finance and Insurance; 53, Real Estate and Rental and Leasing, 54, Professional, Scientific, and Technical Services; 55, Management of Companies and Enterprises, 56, Administrative and Support and Waste Management and Remediation Services; 61, Educational Services; 62, Health Care and Social Assistance; 71, Arts, Entertainment, and Recreation, 72, Accommodation and Food Services; and 81, Other Services (except Public Administration)

Includes gross receipts/revenue from services provided, from the use of facilities, and from merchandise sold. Also included are service contracts and work subcontracted to others; consulting fees; gifts and grants; rental and leasing of vehicles, equipment, instruments, and tools; commissions and fees for arranging transportation of freight and cargo and for exchanging currencies, selling money orders, and cashing checks; revenue from interest, dividends, royalties, and net realized capital gains; net gains from the sale of real property for investment, rent, or lease; gross sales of buildings; gross rents from real property leased; advertising sales; and receipts from department concessions and vending and amusement machines. For advertising agencies, travel industries, and other service establishments operating on a commission basis, receipts include commissions, fees, and other operating income, NOT gross billings and sales.

Receipts are net after deductions for refunds and allowances for merchandise returned by customers. Receipts do not include sales/revenue and other taxes collected directly from customers and paid directly to taxing authorities. Also excluded are gross receipts from departments and concessions operated by others; intracompany transfers; sales of used equipment previously rented or leased to customers; all cash or noncash subsidies from any Commonwealth or federal tax agency; other nonoperating income; and service receipts of manufacturers, wholesalers, retail establishments, or other businesses whose primary activity is other than service. They do, however, include receipts other than from services rendered (e.g., sale of merchandise to individuals or other businesses) by establishments primarily engaged in performing services and classified in the service industries.

Versión en español

Ventas, Ingresos, Entradas, Envíos

Incluye el total de ventas, ingresos o entradas recibidas por la venta de mercancías y/o servicios rendidos por los establecimientos dentro del alcance del censo económico, aunque el pago no haya sido recibido en el 2007. Para Samoa Americana, Guam y las Islas Vírgenes de E.E.U.U., el valor de los envíos y de los trabajos realizados para la manufactura y la construcción, respectivamente, están incluidos. Las cifras pueden estar duplicadas, ya que los productos de algunas industrias son utilizados como materiales para otras industrias y el trabajo (e ingresos) de una compañía puede ser subcontratado a otra compañía e incluido en los ingresos de la misma. La definición de ventas, ingresos o entradas se incluyen en la información provista a continuación.

Información Según el Sector

42 Comercio al por Mayor

Incluye mercancía vendida al contado o a crédito por establecimientos que se dedican principalmente al comercio al por mayor; valor bruto de la venta de mercancía vendida o comprada para otros a base de comisión, corretaje, consignación o agencia de ventas; ingresos provenientes del alquiler de vehículos, equipo, instrumentos, herramientas, etc.; ingresos por entrega, instalación, mantenimiento, reparación, alteración, almacenaje y otros servicios; impuestos indirectos sobre la gasolina, licor, tabaco y otros que son pagados por el fabricante e incluidos en el costo de la mercancía comprada por el establecimiento; ingresos provenientes del alquiler y arrendamiento de mercancía; e ingresos por envío y manejo.

Las ventas son netas después de deducciones relacionadas con reembolsos y concesiones por la mercancía devuelta. El valor de la mercancía entregada como pago parcial "trade-ins" en la compra de mercancía no se resta del total de ventas. Las ventas no incluyen los cargos por ventas a plazo ni a crédito; las ventas y otros impuestos recaudados de clientes y pagados a autoridades tributarias; ingresos no operacionales tales como inversiones, rentas o ventas de bienes raíces e intereses; y las comisiones recibidas por la venta y compra de productos.

No se incluyen ventas al por mayor realizadas por establecimientos manufactureros, detallistas, de servicios u otros negocios cuya actividad principal no es el comercio al por mayor. Para los establecimientos que se dedican principalmente al comercio al por mayor, se incluyen ingresos que no provienen de la venta al por mayor, por ejemplo, ingresos por servicios, ventas al detal, etc.

44-45 Comercio al Detal

Incluye mercancía vendida al contado o a crédito por establecimientos que se dedican principalmente al comercio al detal; cantidades recibidas de clientes por compras en "layaway"; ingresos provenientes del

alquiler de vehículos, equipo, instrumentos, herramientas, etc.; ingresos por entrega, instalación, mantenimiento, reparación, alteración, almacenaje y otros servicios; el valor total de servicios contratados; impuestos indirectos sobre la gasolina, licor, tabaco y otros que son pagados por el fabricante o el mayorista e incluidos en el costo de la mercancía comprada por el establecimiento; cuotas por procesamiento de giros y cambio de cheques; y envío y manejo.

Las ventas son netas después de deducciones relacionadas con reembolsos y concesiones por la mercancía devuelta. El valor de la mercancía entregada como pago parcial en la compra de mercancía "trade-ins" no se resta del total de ventas. Las ventas no incluyen los cargos por ventas a plazo ni a crédito; las ventas y otros impuestos recaudados de clientes y pagados a autoridades tributarias; ventas e ingresos brutos de departamentos o concesiones operados por otras compañías, ingresos no operativos provenientes de inversiones, alquiler o venta de bienes raíces e intereses; y las comisiones recibidas por la venta de billetes de lotería.

No se incluyen ventas al detal realizadas por establecimientos manufactureros, mayoristas, de servicio u otros negocios cuya actividad principal no es el comercio al detal. Para los establecimientos que se dedican principalmente al comercio al detal, se incluyen ingresos que no provienen de la venta al detal, por ejemplo, ingresos por servicios, ventas a usuarios industriales y ventas a otros detallistas.

Sectores Seleccionados (21, Minería; 22, Utilidades; 48-49, Transportación y Almacenaje; 51, Información; 52, Finanzas y Seguros; 53, Bienes Raíces y Alquiler y Arrendamiento; 54, Servicios Profesionales, Científicos y Técnicos; 55, Dirección de Compañías y Empresas, 56, Servicios Administrativos y Apoyo y Manejo de Desperdicios y Remediación; 61, Servicios Educativos; 62, Cuidado de Salud y Asistencia Social; 71, Arte, Entretenimiento y Recreación; 72, Servicios de Alojamiento y Preparación de Comida; y 81, Otros Servicios (excepto Administración Pública)

Incluye ingresos/entradas brutos recibidos por servicios prestados, por el uso de facilidades y por la venta de mercancía. También, incluye los contratos por servicios y el trabajo subcontratado a otros; honorarios por asesoramiento; donaciones y becas; alquiler y arrendamiento de vehículos, equipo, instrumentos y herramientas; comisiones y cuotas por la tramitación de transporte de carga y el cambio de monedas, venta de giros y cambio de cheques; entradas provenientes de intereses, dividendos, regalías y ganancias realizadas netas de capital; ganancias netas por la venta de bienes inmuebles para invertir, alquilar, o arrendar; ventas brutas de edificios; alquiler bruto de bienes inmuebles arrendados; ventas publicitarias; e ingresos provenientes de concesiones y máquinas vendedoras "vending machines" y de diversiones. Para las agencias de publicidad, agencias de viaje y otros establecimientos de servicio que operan a base de comisión, los ingresos incluyen comisiones, cuotas y otros ingresos operativos, NO las facturas o las ventas brutas.

Los ingresos son netos después de deducciones relacionadas con reembolsos y concesiones por la mercancía devuelta. Los ingresos no incluyen las ventas/entradas y otros impuestos recaudados directamente de clientes y pagados directamente a autoridades tributarias. También se excluyen los ingresos brutos de departamentos y concesiones operados por otros; transferencias dentro de la misma compañía, ventas del equipo usado, previamente alquilado o arrendado a clientes; todos los subsidios otorgados por cualquier agencia de impuestos del Estado Libre Asociado o Federal; otros ingresos no operativos; e ingresos por servicios ofrecidos por establecimientos manufactureros, mayoristas, detallistas u otros negocios cuya actividad principal no es de servicios. Para los establecimientos que se dedican principalmente a prestar servicios y que se clasifican como industrias de servicio, se incluyen ingresos que no provienen de servicios rendidos, por ejemplo, venta de mercancía a individuos u otros negocios.

Sector: [2007 Economic Census of Island Areas](#)

Series: [Geographic Area Series](#)

Data Set: [Sector 00: 2007 Economic Census of Island Areas: Geographic Area Series: General Statistics by Kind of Business for American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and Virgin Islands: 2007](#)

 Data Item: **Total inventories, beginning-of-year (\$1,000)**

Description: Beginning-of-Year Inventories

The total value of merchandise inventories an establishment owned on December 31, 2006. Inventories are reported on an ownership basis; all merchandise owned by reporting establishments are included, even though some may be held by others for sale on consignment.

For Puerto Rico wholesale establishments, inventories must be located in Puerto Rico, including Foreign Trade Zones in the United States, even if portions of these inventories were held at other locations. The value of inventories held by this establishment but owned by others is excluded.

Beginning-of-year inventories are only presented for selected sectors. The sectors presented are manufacturing (NAICS 31-33, excluding Puerto Rico), Wholesale (42), Retail (44-45), Transportation and Warehousing (48-49), Information (51), and Management of Companies and Enterprises (55).

Inventarios a Principio de Año

Representa el valor total de inventarios de mercancía que fuera propiedad del establecimiento el 31 de diciembre de 2006. Los inventarios se declaran en base a la propiedad; se incluye toda la mercancía que sea propiedad de los establecimientos informantes, aunque parte de la mercancía esté en manos de otros para ser vendida a consignación.

Los inventarios para los establecimientos mayoristas en Puerto Rico, deben de estar localizados en Puerto Rico, incluyendo Zonas de Comercio Exterior en los Estados Unidos, aún cuando parte de los inventarios estuvieran en otras localizaciones. Se excluye el valor de los inventarios que está en manos del establecimiento pero que es propiedad de otros.

Los inventarios a principio de año se presentan para sectores seleccionados. Los sectores presentados son Manufactura (NAICS 31-33, excluye Puerto Rico), Comercio al por Mayor (42), Comercio al Detal (44-45), Transportación y Almacenaje (48-49), Información (51) y Administración de Compañías y Empresas (55).
