For Release: *March 28, 2019*

## **The Unemployment Situation on Guam: September 2018**

The Unemployment rate in Guam for September 2018 was 3.6 percent, a decrease of 0.2 percentage points from the previous report of June 2018. In comparison to the prior year's figure of September 2017, the rate decreased 2.2 percentage points, from 5.8 percent.

The total number of persons unemployed in June 2018 was 2,580, which shows a decrease of 310 from the June 2018 figure of 50. Over the year, from September 2018 to June 2017 the number of persons unemployed declined by 1,550.

In comparison to the prior year's figure of September 2017, there was a slight increase in the Not in the Labor Force category from 50,940 to 51,460. For the September 2018 survey period, 1,610 persons or 3.1 percent in the Not in the Labor Force category indicated that they wanted a job but did not look for work for a variety of reasons. Alternatively, 96.9 percent of those in the Not in the Labor Force category indicated that they did not want a job during the survey period.

The labor force participation rate for September 2018 was 58.1 percent. The labor force participation rate is the percent of the total civilian population age 16 years of age or older in the labor force as either employed or unemployed. The participation rate declined marginally from the period one year earlier in September 2017 when it was 58.4 percent.

---

## EXPLANATORY NOTE

Data on labor force, employment, and unemployment are derived from the sample survey of households conducted by the Bureau of Labor Statistics in its Current Labor Force Statistics program. These periodic surveys of the population are conducted with a scientifically selected sample of households designed to represent the civilian non-institutional population. Respondents are interviewed to obtain information about the employment status of each member of the household 16 years of age and over. The inquiry relates to activity or status during the calendar week, Sunday through Saturday, which includes the 12th of the month. This is known as the survey week. Actual field interviewing is conducted in the following weeks.

Inmates of institutions, members of the Armed Forces, civilian living in military installations and housings, persons under 16 years of age, and nonimmigrant aliens are not covered in the periodic enumerations and are excluded from this report. Included in this report are citizens of the Federated States of Micronesia, and the Republic of Marshall Islands, who are authorized by the Compact of Free Association to accept employment in the United States and also, citizens of the Republic of Palau which are authorized to accept employment through the Covenant with the U.S. in October 1994.

**Employed persons** comprise (a) all those within the scope of the survey who, during the survey week did any work at all as paid employees, in their own business, profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (b) all those were not working but who had jobs or business from which they were absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. For those who hold more than one job, the job which they worked the greatest number of hours during the reference period is the one counted.

Excluded are persons whose only activity consisted of work around the house (such as, own home housework, and painting or repairing own home) or volunteer work for religious, charitable, and similar organizations.

**Unemployed persons** comprise of all persons within the scope of the survey, who did not work during the survey week, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they were laid off; or (b) were waiting to report to a new wage or salary job within 30 days.

The **civilian labor force** comprises the total of all civilians as employed or unemployed in accordance with the criteria described above.

**Not in the labor force** includes all civilians within the scope of the survey 16 years and over who are not classified as employed or unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

**Acknowledgement** is due to Nellie N. Asanuma, Research & Statistics Analyst II; Mary Ann Roman, Data Control Clerk; and to the temporary survey workers. Acknowledgment is also due to those whose cooperation and participation made this survey possible.
