For Release: *November 22, 2019*

The Unemployment Situation on Guam: June 2019

The Unemployment rate in Guam for June 2019 was 4.6 percent, an increase of 0.3 percentage points from the March 2019 figure of 4.3 percent and an increase of 0.8 percentage points from the June 2018 figure of 3.8 percent.

The total number of persons unemployed in June 2019 was 3,210, which shows an increase of 90, in the latest quarter, and an increase of 680 since June 2018.

Guam's population covered by the survey, 16 years of age and over in June 2019 was 123,170, which shows an increase of 110, in the latest quarter, and an increase of 280 since June 2018.

The unemployment rate reflected an increase in the number of persons unemployed and an increase in the number of persons counted in the Not in the Labor Force category. The number of persons Not in the Labor Force increased by 3,670 from 49,700 in March 2019 to 53,370 in June 2019. For the June 2019 survey period, 2,860 persons, or 5.4 percent in the Not in the Labor Force category indicated that they wanted a job but did not look for work for a variety of reasons. Whereas, 95 percent in the Not in the Labor Force category indicated that they did not want a job during the survey period.

EXPLANATORY NOTE

Data on labor force, employment, and unemployment are derived from the sample survey of households conducted by the Bureau of Labor Statistics in its Current Labor Force Statistics program. These periodic surveys of the population are conducted with a scientifically selected sample of households designed to represent the civilian non-institutional population. Respondents are interviewed to obtain information about the employment status of each member of the household 16 years of age and over. The inquiry relates to activity or status during the calendar week, Sunday through Saturday, which includes the 12th of the month. This is known as the survey week. Actual field interviewing is conducted in the following weeks.

Inmates of institutions, members of the Armed Forces, civilian living in military installations and housings, persons under 16 years of age, and nonimmigrant aliens are not covered in the periodic enumerations and are excluded from this report. Included in this report are citizens of the Federated States of Micronesia, and the Republic of Marshall Islands, who are authorized by the Compact of Free Association to accept employment in the United States and also, citizens of the Republic of Palau which are authorized to accept employment through the Covenant with the U.S. in October 1994.

Employed persons comprise (a) all those within the scope of the survey who, during the survey week did any work at all as paid employees, in their own business, profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (b) all those were not working but who had jobs or business from which they were absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. For those who hold more than one job, the job which they worked the greatest number of hours during the reference period is the one counted.

Excluded are persons whose only activity consisted of work around the house (such as, own home housework, and painting or repairing own home) or volunteer work for religious, charitable, and similar organizations.

Unemployed persons comprise of all persons within the scope of the survey, who did not work during the survey week, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they were laid off; or (b) were waiting to report to a new wage or salary job within 30 days.

The **civilian labor force** comprises the total of all civilians as employed or unemployed in accordance with the criteria described above.

Not in the labor force includes all civilians within the scope of the survey 16 years and over who are not classified as employed or unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

Reliability of the estimates Statistics based on the household and establishment surveys are subject to both sampling and nonsampling error. When a sample, rather than the entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent.

Acknowledgement is due to Nellie N. Asanuma, Research & Statistics Analyst II; Mary Ann Roman, Data Control Clerk; and to the temporary survey workers. Acknowledgment is also due to those whose cooperation and participation made this survey possible.

TABLE 1. HIGHLIGHTS OF THE EMPLOYMENT SITUATION ON GUAM: JUNE 2019

SELECTED CATEGORIES	Sep 2017	Mar 2018	Jun 2018	Sep 2018	Mar 2019	Jun 2019
Total Civilian Population						
16 years of age and over	122,540	122,720	122,890	122,950	123,060	123,170
