Release No.: 2023-02

For Release: January 11, 2023

The Unemployment Situation on Guam: September 2022

The unemployment rate in Guam for September 2022 was 4.4 percent, a decrease of 0.4 percentage points from the June 2022 figure of 4.8 percent, and a reduction of 3.7 percentage points from the September 2021 figure one year earlier of 8.1 percent.

The total number of persons unemployed in September 2022 was 3,130, a decrease in the latest quarter and year. The September 2022 statistics continue the trend of declining numbers of unemployed persons and unemployment rate every quarter consecutively for the last seven quarters since the pandemic high figures occurred in December 2020.

Guam's population covered by the survey, 16 years of age and over in September 2022 was 123,640. The covered civilization population is comprised of those in the labor force and those not in the labor force.

The September 2022 unemployment rate reflected a decrease in the number of persons unemployed in recent quarters due to an increase in employment and persons leaving the labor force and no longer looking for work. The number of persons not in the labor force decreased from 54,190 in September 2021 to 51,960 in September 2022.

The labor force participation rate, the civilian labor force as a fraction of the civilian population age 16 years of age and over, decreased to 58.0 percent in September 2022 from 56.2 percent in June 2022.

EXPLANATORY NOTE

Data on labor force, employment, and unemployment are derived from the sample survey of households conducted by the Bureau of Labor Statistics in its Current Labor Force Statistics program. These periodic surveys of the population are conducted with a scientifically selected sample of households designed to represent the civilian non-institutional population. Respondents are interviewed to obtain information about the employment status of each member of the household 16 years of age and over. The inquiry relates to activity or status during the calendar week, Sunday through Saturday, which includes the 12th of the month. This is known as the survey week. Actual field interviewing is conducted in the following weeks.

Inmates of institutions, members of the Armed Forces, civilian living in military installations and housings, persons under 16 years of age, and nonimmigrant aliens are not covered in the periodic enumerations and are excluded from this report. Included in this report are citizens of the Federated States of Micronesia, and the Republic of Marshall Islands, who are authorized by the Compact of Free Association to accept employment in the United States and also, citizens of the Republic of Palau which are authorized to accept employment through the Covenant with the U.S. in October 1994.

Employed persons comprise (a) all those within the scope of the survey who, during the survey week did any work at all as paid employees, in their own business, profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (b) all those were not working but who had jobs or business from which they were absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. For those who hold more than one job, the job which they worked the greatest number of hours during the reference period is the one counted.

Excluded are persons whose only activity consisted of work around the house (such as, own home housework, and painting or repairing own home) or volunteer work for religious, charitable, and similar organizations.

Unemployed persons comprise of all persons within the scope of the survey, who did not work during the survey week, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they were laid off; or (b) were waiting to report to a new wage or salary job within 30 days.

The **civilian labor force** comprises the total of all civilians as employed or unemployed in accordance with the criteria described above.

Not in the labor force includes all civilians within the scope of the survey 16 years and over who are not classified as employed or unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

Reliability of the estimates Statistics based on the household and establishment surveys are subject to both sampling and nonsampling error. When a sample, rather than the entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent.

Acknowledgement is due to those surveyed individuals whose cooperation and participation made this survey possible.

TABLE 1. HIGHLIGHTS OF THE EMPLOYMENT SITUATION ON GUAM: September 2022

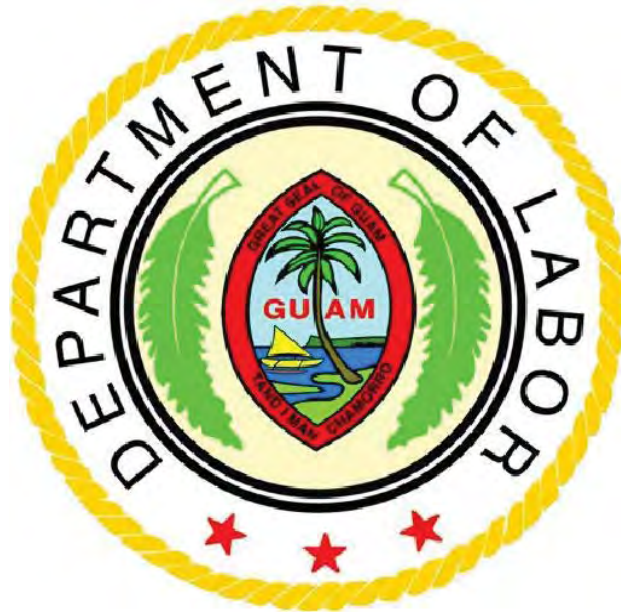

SELECTED CATEGORIES	Jun 2021	Sep 2021	Dec 2021	Mar 2022	Jun 2022	Sep 2022
Total Civilian Population						
16 years of age and over	123,900	124,110	124,120	124,200	123,980	123,640
Civilian Labor Force	71,250	69,920	72,170	72,720	69,780	71,680
Total Employed	63,070	64,260	66,980	69,050	66,400	68,550
Adult women	27,030	31,820	32,300	33,500	31,150	31,610
Adult men	35,000	32,130	33,660	35,140	34,690	35,370
Teenagers	1,040	310	1,020	410	560	1,570
Household Heads	23,220	25,830	24,820	28,600	25,260	27,540
Full-time workers	52,330	52,920	60,180	60,880	56,990	61,040
