Release No.: 2023-08
For Release: October 16, 2023

The Unemployment Situation on Guam: June 2023

The unemployment rate in Guam for June 2023 was 4.0 percent, a decrease of 0.3 percentage points from the March 2023 figure of 4.3 percent, and a reduction of 0.8 percentage points from the June 2022 figure one year earlier of 4.8 percent.

The total number of persons unemployed in June 2023 was 2,790, a decrease in the latest quarter over the year. The June 2023 statistics continue the general trend of reduced numbers of unemployed persons along with lower unemployment rates since the pandemic high figures occurred in December 2020.

Guam's population covered by the survey, 16 years of age and over in June 2023 was 122,960. The covered civilian population is comprised of those in the labor force and those not in the labor force.

The June 2023 unemployment rate reflected a decrease in the number of persons unemployed along with a decrease in employment and an increase in the number of persons that were out of the labor force. The number of persons not in the labor force decreased from 54,200 in June 2022 to 52,540 in June 2023.

The labor force participation rate, the civilian labor force as a fraction of the civilian population age 16 years of age and over, increased to 57.3 percent in June 2023 from 56.3 percent in June 2022.

EXPLANATORY NOTE

Data on labor force, employment, and unemployment are derived from the sample survey of households conducted by the Bureau of Labor Statistics in its Current Labor Force Statistics program. These periodic surveys of the population are conducted with a scientifically selected sample of households designed to represent the civilian non-institutional population. Respondents are interviewed to obtain information about the employment status of each member of the household 16 years of age and over. The inquiry relates to activity or status during the calendar week, Sunday through Saturday, which includes the 12th of the month. This is known as the survey week. Actual field interviewing is conducted in the following weeks.

Inmates of institutions, members of the Armed Forces, civilian living in military installations and housings, persons under 16 years of age, and nonimmigrant aliens are not covered in the periodic enumerations and are excluded from this report. Included in this report are citizens of the Federated States of Micronesia, and the Republic of Marshall Islands, who are authorized by the Compact of Free Association to accept employment in the United States and also, citizens of the Republic of Palau which are authorized to accept employment through the Covenant with the U.S. in October 1994.

Employed persons comprise (a) all those within the scope of the survey who, during the survey week did any work at all as paid employees, in their own business, profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (b) all those were not working but who had jobs or business from which they were absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. For those who hold more than one job, the job which they worked the greatest number of hours during the reference period is the one counted.

Excluded are persons whose only activity consisted of work around the house (such as, own home housework, and painting or repairing own home) or volunteer work for religious, charitable, and similar organizations.

Unemployed persons comprise of all persons within the scope of the survey, who did not work during the survey week, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they were laid off; or (b) were waiting to report to a new wage or salary job within 30 days.

The **civilian labor force** comprises the total of all civilians as employed or unemployed in accordance with the criteria described above.

Not in the labor force includes all civilians within the scope of the survey 16 years and over who are not classified as employed or unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

Reliability of the estimates Statistics based on the household and establishment surveys are subject to both sampling and nonsampling error. When a sample, rather than the entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent.

Acknowledgement is due to those surveyed individuals whose cooperation and participation made this survey possible.

TABLE 1. HIGHLIGHTS OF THE EMPLOYMENT SITUATION ON GUAM: June 2023

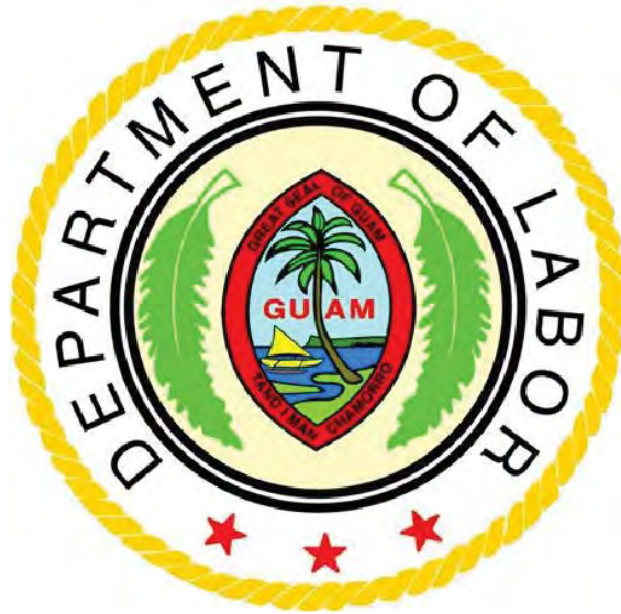

SELECTED CATEGORIES	Mar 2022	Jun 2022	Sep 2022	Dec 2022	Mar 2023	Jun 2023
Total Civilian Population						
16 years of age and over	124,200	123,980	123,640	123,110	123,160	122,960
Civilian Labor Force	72,720	69,780	71,680	73,370	74,210	70,420
Total Employed	69,050	66,400	68,550	70,460	71,050	67,630
Adult women	33,500	31,150	31,610	30,670	31,970	28,510
Adult men	35,140	34,690	35,370	38,130	36,710	35,210
