Release No.: 2026-07
For Release: August 31, 2026

The Unemployment Situation on Guam: June 2026

The unemployment rate in Guam for June 2026 was 3.6 percent, up 0.2 percentage points from the March 2026 figure of 3.4 percent, and up 0.4 percentage points from the comparable month one year ago in June 2026.

The total number of persons unemployed in June 2026 was 2,640, up from the previous quarter but virtually identical to the September 2025 figure. The June 2026 statistics continue the general trend of relatively low and steady unemployment rates in recent quarters.

The June 2026 unemployment rate and the number of unemployed persons were up very slightly since June 2025; however, the number of persons who were out of the labor force declined compared to June 2025.

Guam's population covered by the survey, aged 16 years and over in June 2026, was 123,200. The covered civilian population comprises those in the labor force and those not in the labor force.

The labor force participation rate, the civilian labor force as a fraction of the civilian population aged 16 years and over, increased from 57.4 percent in June 2025 to 59.6 percent in June 2026.

EXPLANATORY NOTE

Data on labor force, employment, and unemployment are derived from the sample survey of households conducted by the Bureau of Labor Statistics in its Current Labor Force Statistics program. These periodic surveys of the population are conducted with a scientifically selected sample of households designed to represent the civilian non-institutional population. Respondents are interviewed to obtain information about the employment status of each member of the household 16 years of age and over. The inquiry relates to activity or status during the calendar week, Sunday through Saturday, which includes the 12th of the month. This is known as the survey week. Actual field interviewing is conducted in the following weeks. Survey data was collected in four panels in March, June, September and December. The June 2026 published information is an average of the most recent four quarterly samples.

Inmates of institutions, members of the Armed Forces, civilian living in military installations and housings, persons under 16 years of age, and nonimmigrant aliens are not covered in the periodic enumerations and are excluded from this report. Included in this report are citizens of the Federated States of Micronesia, and the Republic of Marshall Islands, who are authorized by the Compact of Free Association to accept employment in the United States and also, citizens of the Republic of Palau which are authorized to accept employment through the Covenant with the U.S. in October 1994.

Employed persons comprise (a) all those within the scope of the survey who, during the survey week did any work at all as paid employees, in their own business, profession, or farm or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, and (b) all those were not working but who had jobs or business from which they were absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs.

Each employed person is counted only once. For those who hold more than one job, the job which they worked the greatest number of hours during the reference period is the one counted.

Excluded are persons whose only activity consisted of work around the house (such as, own home housework, and painting or repairing own home) or volunteer work for religious, charitable, and similar organizations.

Unemployed persons comprise of all persons within the scope of the survey, who did not work during the survey week, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the survey week (except for temporary illness). Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they were laid off; or (b) were waiting to report to a new wage or salary job within 30 days.

The **civilian labor force** comprises the total of all civilians as employed or unemployed in accordance with the criteria described above.

Not in the labor force includes all civilians within the scope of the survey 16 years and over who are not classified as employed or unemployed. Persons doing only incidental unpaid family work (less than 15 hours) are also classified as not in the labor force.

Reliability of the estimates Statistics based on the household and establishment surveys are subject to both sampling and nonsampling error. When a sample, rather than the entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent.

Acknowledgement is due to those surveyed individuals whose cooperation and participation made this survey possible.

TABLE 1. HIGHLIGHTS OF THE EMPLOYMENT SITUATION ON GUAM: June 2026

SELECTED CATEGORIES	Mar 2025	Jun 2025	Sep 2025	Dec 2025	Mar 2026	Jun 2026
Total Civilian Polulation						
16 years of age and over	123,170	123,160	123,050	123,060	123,180	123,200
Civilian Labor Force	71,130	70,670	74,490	74,590	72,920	73,400
Total Employed	68,710	68,400	71,850	72,350	70,430	70,760
Adult women	33,420	33,160	34,240	33,830	33,460	33,930
Adult men	33,130	33,230	35,260	36,650	35,800	35,840
Teenagers	2,160	2,010	2,350	1,870	1,170	990
Household Heads	27,610	27,130	28,440	28,780	28,100	28,640
Full-time workers	61,240	60,830	63,860	63,910	62,540	63,880
